

Introduction to Carotid Duplex & Peripheral Vascular/ Color Flow Imaging

October 23-27, 2017

Monday, October 23

7:45	Welcome and Continental Breakfast	
8:00	Interactive Polling Session	
8:15	Doppler & Color Fundamentals	Lori Green, BA, RT(R), RDMS, RDCS, RVT
10:00	Break	
10:15	Carotid Anatomy & Physiology	Brian Schenker, MBA, RDMS, RVT
11:00	Break	
11:15	Normal Spectral Analysis	Lori Green, BA, RT(R), RDMS, RDCS, RVT
11:45	Carotid Scan Protocol	Brian Schenker, MBA, RDMS, RVT
12:30	Lunch	
1:30	Hands-On Scanning	
5:00	Adjourn	

Tuesday, October 24

7:45	Continental Breakfast	
8:00	Disease Progression	Bill Schroedter, BS, RVT, FSVU
8:30	Stenosis Assessment Part I	
9:15	Break	
9:30	Live Scanning Demo	
10:15	Break	
10:30	Stenosis Assessment Part II & Case Studies	
11:30	Break	
11:45	Three of a Kind: Interactive Review of Carotid Imaging Pitfalls	
12:30	Lunch	
1:30	Hands-On Scanning / Case Studies / Interpretation Sessions	
5:00	Adjourn	

Wednesday, October 25

7:45	Continental Breakfast	
8:00	Intima-Media Thickness: Measurement & Evaluation	Phil Bendick, Ph.D., RVT, FSDMS, FSVU
8:45	Break	
9:00	Interactive Interpretation “Challenging Case Studies”	
10:30	Break	
10:45	Non-Atherosclerotic Carotid Abnormalities	
11:45	Interactive Polling Session with discussion	
12:00	Lunch	
1:00	Hands-On Scanning / Case Studies & Structuring a Report Session	Phil Bendick, Ph.D., RVT, FSDMS, FSVU
4:30	Adjourn	

Introduction to Carotid Duplex & Peripheral Vascular/ Color Flow Imaging

October 23-27, 2017

Thursday, October 26

7:45	Continental Breakfast	
8:00	Interactive Polling Session	
8:15	Venous Anatomy, Scan Techniques & Normal Characteristics	Phil Bendick, Ph.D., RVT, FSDMS, FSVU
9:00	Break	
9:15	Duplex / Color Evaluation of LE DVT	
10:00	Duplex / Color Evaluation of UE DVT	
10:30	Break	
10:45	Evaluation of Venous Insufficiency	
11:15	Duplex / Color Evaluation for Venous Ablation Procedures - Types of Vein Ablation Procedures - Pre-Procedure Mapping - Post-procedure Mapping	
12:30	Lunch	
1:30	Hands-On Scanning & Live Demonstration of Venous Insufficiency	Phil Bendick, Ph.D., RVT, FSDMS, FSVU
5:00	Adjourn	

Friday, October 27

7:45	Continental Breakfast	
8:00	LE Arterial Anatomy & Physiology	Rob Daigle, BA, RVT, FSVU, FSDMS
8:30	Clinical Exam & Indirect Testing	
9:30	Break	
9:45	Direct Testing & Duplex Scanning	
11:00	Break	
11:15	Live Demo: Arterial Duplex	
11:45	Treatment of Lower Arterial Disease	
12:15	Interactive Polling Session with Discussion	
12:30	Lunch	
1:30	Hands-On Scanning Duplex & Segmental Pressures	
4:30	Adjourn
