Advanced Emergency Medicine Ultrasound

February 18 - 19, 2027

Includes Pre-Course Online Video: Focused Cardiac Ultrasound by James Mateer, MD, RDMS. Login to your GCUS.com account and navigate to “My Activities” to complete **prior** to this course.

Thursday, February 18, 2027			
7:30	**Welcome and Continental Breakfast**		
7:40	**Interactive Polling Session**		
7:50	**General Session: Advanced Ultrasound Evaluation of Shock**	**Andrew Laudenbach, MD**	
8:55	**Break out Groups**		
9:00	**Main Lecture Room**	**Scan Lab**	
	MI & Complications Andrea Dreyfuss, MD	**Hands-On Scanning: Advanced RUSH with DVT**	
10:00	**Break & Switch Groups**		
10:15	**MI & Complications Andrea Dreyfuss, MD**	**Hands-On Scanning: Advanced RUSH with DVT**	
11:15	**Lunch On Your Own**		
12:15	**Main Lecture Room**	**Scan Lab**	
	Intro to Right Heart & Echo Mimics Andrew Laudenbach, MD	**Hands-On Scanning: Focused Cardiac**	
1:15	**Switch Groups**		
1:20	**Intro to Right Heart & Echo Mimics Andrew Laudenbach, MD**	**Hands-On Scanning: Focused Cardiac**	
2:20	**Break & Switch Groups**		
2:30	**Interactive Emergency Medicine & Critical Care Ultrasound Case Studies Andreas Dewitz, MD, RDMS**	**Hands-On Scanning: Focused Cardiac & POCUS Choice**	
3:30	**Breal & Switch Groups**		
3:45	**Interactive Emergency Medicine & Critical Care Ultrasound Case Studies Andreas Dewitz, MD, RDMS**	**Hands-On Scanning: Focused Cardiac & POCUS Choice**	
4:45	**Adjourn**		

Friday, February 19, 2027		
7:30	**Continental Breakfast**	
7:45	**General Session: Fluid Responsiveness in the Critically Ill**	**Andrea Dreyfuss, MD**
8:45	**Break – Split into Emergency Medicine & Critical Care Tracks**	
9:00	**Ultrasound-Guided Nerve Blocks for Emergency Medicine**	**Andreas Dewitz, MD, RDMS**
10:30	**Ultrasound Evaluation of the Acute Scrotum**	**James Mateer, MD, RDMS**
11:15	**All Groups Return to Main Lecture Room**	
11:30	**Interactive Post-Polling with Discussion**	
11:45	**Lunch On Your Own**	
12:15	**Optional Lunch Lecture: Emergency Medicine POCUS Case Presentations**	**Presented by: USF Emergency Medicine Residents & Fellows**
1:00	**Hands-On Scanning Sessions: US-Guided Nerve Blocks and US Evaluation of Shock & Fluid Responsiveness PLUS Optional Rotation for Scrotal US**	
4:00	**Adjourn**	

** This is a tentative course itinerary. Lecture faculty, times and dates may be subject to change. Times listed are Eastern Time (ET).

Advanced Emergency Medicine Ultrasound

February 18 - 19, 2027

The Gulfcoast Ultrasound Institute is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Gulfcoast Ultrasound Institute designates this live educational activity for a maximum of 16.0 *AMA PRA Category 1 Credits™.* Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 16.0 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Approved by the American College of Emergency Physicians (ACEP) for a maximum of 16.0 hour(s) of Category I credit.

The Gulfcoast Ultrasound Institute designates an additional 1.25 *AMA PRA Category 1 Credits*™ for the enduring educational activity "Focused Cardiac Ultrasound"*.* Physicians should claim only credit commensurate with the extent of their participation in the educational activity.

This course also meets CME / CEU requirements for ARDMS. Note: While offering the CME credit hours noted above, activities are not intended to provide extensive training or certification for exam performance or interpretation.

NEEDS STATEMENT:
The planning committee has determined a need for the following educational activity based on request from the medical community, expanded utilization of ultrasound, and lab accreditation requirements.

COURSE OBJECTIVES:
At the completion of the program the participant should be able to:

1. Increase the participant's knowledge to better perform and/or interpret Emergency and Critical Care ultrasound examinations.
2. Increase competence to incorporate protocols, scan techniques & interpretation criteria to improve diagnostic/treatment accuracy.
3. State an algorithm for uses of bedside ultrasound during cardiac arrest, sepsis, shock, and hypotension.
4. Identify the normal anatomy and function of the right heart.
5. Recognize and quantify tricuspid valve and pulmonic valve disease.
6. Recognize the sonographic characteristics of pulmonary emboli and common echocardiographic mimics.
7. Evaluate fluid responsiveness in the critically ill patient.
8. Recognize the sonographic appearance of individual nerves and list the advantages provided when ultrasound is used for performing regional nerve blocks.
9. Perform testicular ultrasound and recognize acute abnormalities.

While offering CME credit hours this activity is not intended to provide extensive training or certification for performance of or interpretation of Ultrasound Examinations. We recommend working under supervised conditions until an acceptable level of proficiency has been achieved.

A special thanks to the following commercial companies who provide various (in kind) support to help make our programs possible (companies listed are as of the time of printing):

Advanced Emergency Medicine Ultrasound

February 18 - 19, 2027

Disclosure of Presence/Absence of Relevant Financial Relationships with Ineligible Companies for Individuals in Control of Content

Gulfcoast Ultrasound Institute, Inc. endorses the Standards for Integrity and Independence in Accredited Continuing Education of the Accreditation Council for Continuing Medical Education (ACCME) for all activities. All individuals in control of content are required to disclose any financial relationships with ACCME defined ineligible companies, regardless of the amount. Full disclosure of the presence or absence of relevant financial relationships with ineligible companies is outlined in the course materials and will be verbally disclosed to all learners during opening remarks.

FACULTY:

James Mateer, MD, RDMS
Clinical Professor, Emergency Medicine
Medical College of Wisconsin
Milwaukee, WI
No relevant financial relationships to disclose

Andreas Dewitz, MD, RDMS
Clinical Professor of Emergency Medicine
Clinical Director of POCUS Education, Solomont Simulation Center
Department of Emergency Medicine
Boston Medical Center
Boston, MA
No relevant financial relationships to disclose

Andrea Dreyfuss, MD
Associate Professor of Emergency Medicine
Department of Emergency Medicine
University of Minnesota Medical School
Ultrasound Fellowship Director
Hennepin County Medical Center
Minneapolis, MN
No relevant financial relationships to disclose

Andrew Laudenbach, MD
Ultrasound Fellowship Director
Clinical Informaticist
Associate Professor of Emergency Medicine
Department of Emergency Medicine
Hennepin Healthcare
Minneapolis, MN
No relevant financial relationships to disclose

Advanced Emergency Medicine Ultrasound
February 18 - 19, 2027

Disclosure of Presence/Absence of Relevant Financial Relationships with Ineligible Companies for Individuals in Control of Content

In addition to the faculty listed on the previous page, the following individuals are recognized by GUI as being in control of content of this program:

James Mateer, MD, RDMS (Medical Director-planner & QI Task Force)
Medical Director, Gulfcoast Ultrasound Institute
Milwaukee, WI
No relevant financial relationships to disclose

Charlotte Derr, MD, RDMS, FACEP, FPD-AEMUS (Co-Medical Director-planner & QI Task Force)
Professor of Emergency Medicine
Fellowship Director of Advanced Emergency Medicine Ultrasound Fellowship Program
University of South Florida Morsani College of Medicine
Tampa, FL
No relevant financial relationships to disclose

Andreas Dewitz, MD, RDMS (Member of Advisory Board & QI Task Force Subcommittee)
Clinical Professor of Emergency Medicine
Clinical Director of POCUS Education, Solomont Simulation Center
Department of Emergency Medicine
Boston Medical Center
Boston, MA
No relevant financial relationships to disclose

Lori Green, BA, RDMS, RDCS, RVT (Program Director-planner, Content Reviewer, QI Task Force)
Gulfcoast Ultrasound Institute, Inc.
St. Petersburg, FL
No relevant financial relationships to disclose

Trisha Reo, AAS, RDMS, RVT (Program Coordinator-planner, Content Reviewer, QI Task Force)
Gulfcoast Ultrasound Institute, Inc.
St. Petersburg, FL
No relevant financial relationships to disclose

Mark Swanson, RDMS, RVT (Senior Clinical Instructor/Product Specialist-planner, Content Reviewer, QI Task Force)
Gulfcoast Ultrasound Institute, Inc.
St. Petersburg, FL
No relevant financial relationships to disclose

HANDS-ON INSTRUCTORS:
At the time of printing **all hands-on instructors for this program have signed disclosure forms and have no relevant financial relationships to disclose.** A verbal disclosure will be made during opening remarks. All scanning sessions are monitored by the program director and/or the program manager to ensure education objectives are met and no commercial bias occurs.

Content:
All content for this CME activity were reviewed and approved by member(s) of the GUI staff to determine content validity and ensure that no conflicts of interest exist prior to final course material compilation and printing.

Reviewed & approved:
Lori Green BA, RDMS, RDCS, RVT
Trisha Reo AAS, RDMS, RVT
Mark Swanson, RDMS, RVT

Advanced Emergency Medicine Ultrasound

February 18 - 19, 2027

Welcome!!

The entire staff at Gulfcoast Ultrasound Institute would like to welcome you to our educational facility.

Our goal is to provide the highest quality continuing education possible in a relaxed and personal atmosphere. The content of each program has been carefully planned to provide you with the information needed to obtain a firm foundation to begin gaining the experience to perform and/or interpret ultrasound examinations in the specialty of your choice. The program will be structured with lectures in the morning and hands-on sessions during the afternoon to allow more individualized attention the program participants will be divided into groups for the hands-on workshops based on your experience level and type of equipment you work with.

To help you get the most out of this program we would like to make the following recommendations:

1. Attend the lectures and scheduled hands-on sessions.

2. When you are not involved in a scheduled afternoon session, take advantage of the SUPPLEMENTAL SCANNING WORKSHOP or check out a DVD from our library.

3. If you do not understand a particular concept, ASK FOR HELP!

4. Study your course workbook during the evening.

5. Remember excellence is not achieved overnight. Becoming proficient in any ultrasound specialty requires the commitment to continually study and perform multiple (at least 100) exams before an initial level of confidence is achieved. The AIUM guidelines suggest competency for interpretation requires a minimum of 500 exams per specialty.

6. Begin scanning immediately upon return to the ultrasound departments even if it's on a volunteer. We recommend scanning/interpretations under supervised conditions until an accepted level of proficiency has been obtained.

All of our instructors, guest speakers and office staff are here to serve you! If you have questions of any kind, please do not hesitate to ask.

Gulfcoast Ultrasound Institute
EQUIPMENT RECOMMENDATIONS

Since 1985, Ultrasound Institute has taken great pride in our ability to provide quality continuing education programs while remaining unbiased regarding the recommendation of ultrasound equipment.

Our programs are supported by most of the major equipment manufactures by providing their systems for use during the hands-on sessions. These companies have learned their products will be used and demonstrated to the best of our abilities in an educational setting and that no selling or promotion is done on our premises.

We realize that some of the course participants may currently be in the process of evaluating equipment for purchase and would like the opinions of our staff to determine the “best” system for your department. Everyone has a “favorite” ultrasound system (usually because it is the one they have worked with the most and are comfortable with) however, Gulfcoast Ultrasound must take an unbiased position in regards to equipment recommendations.

If you are currently evaluating equipment for purchase, we suggest you invite the equipment manufacturers to your facility for a private demonstration to determine image quality, ease of use, over-all capabilities etc. on an individual basis.

Thank you!

Lori Green BA, RDMS, RDCS, RVT
